

Item 8.4 - Potential Supportive Outdoor Sleeping / Temporary Alternative Sleeping Sites and Related Implementation Actions

City of San José
June 18, 2024

Matt Loesch, Director of Public Works

Erik L. Soliván, Housing Director

Omar Passons, Deputy City Manager, City of
San José

Potential Alternative Sites

1. Site Selection - Preliminary Considerations
2. Potential Supportive Outdoor Sleeping and Basic Needs Sites
3. Proposed Uses for Identified Sites
4. Next Steps
5. Q&A

Site Selection – Preliminary Considerations

Initial Hurdles:

- Preliminary site analysis, basic feasibility checks
- Cost and time to deliver

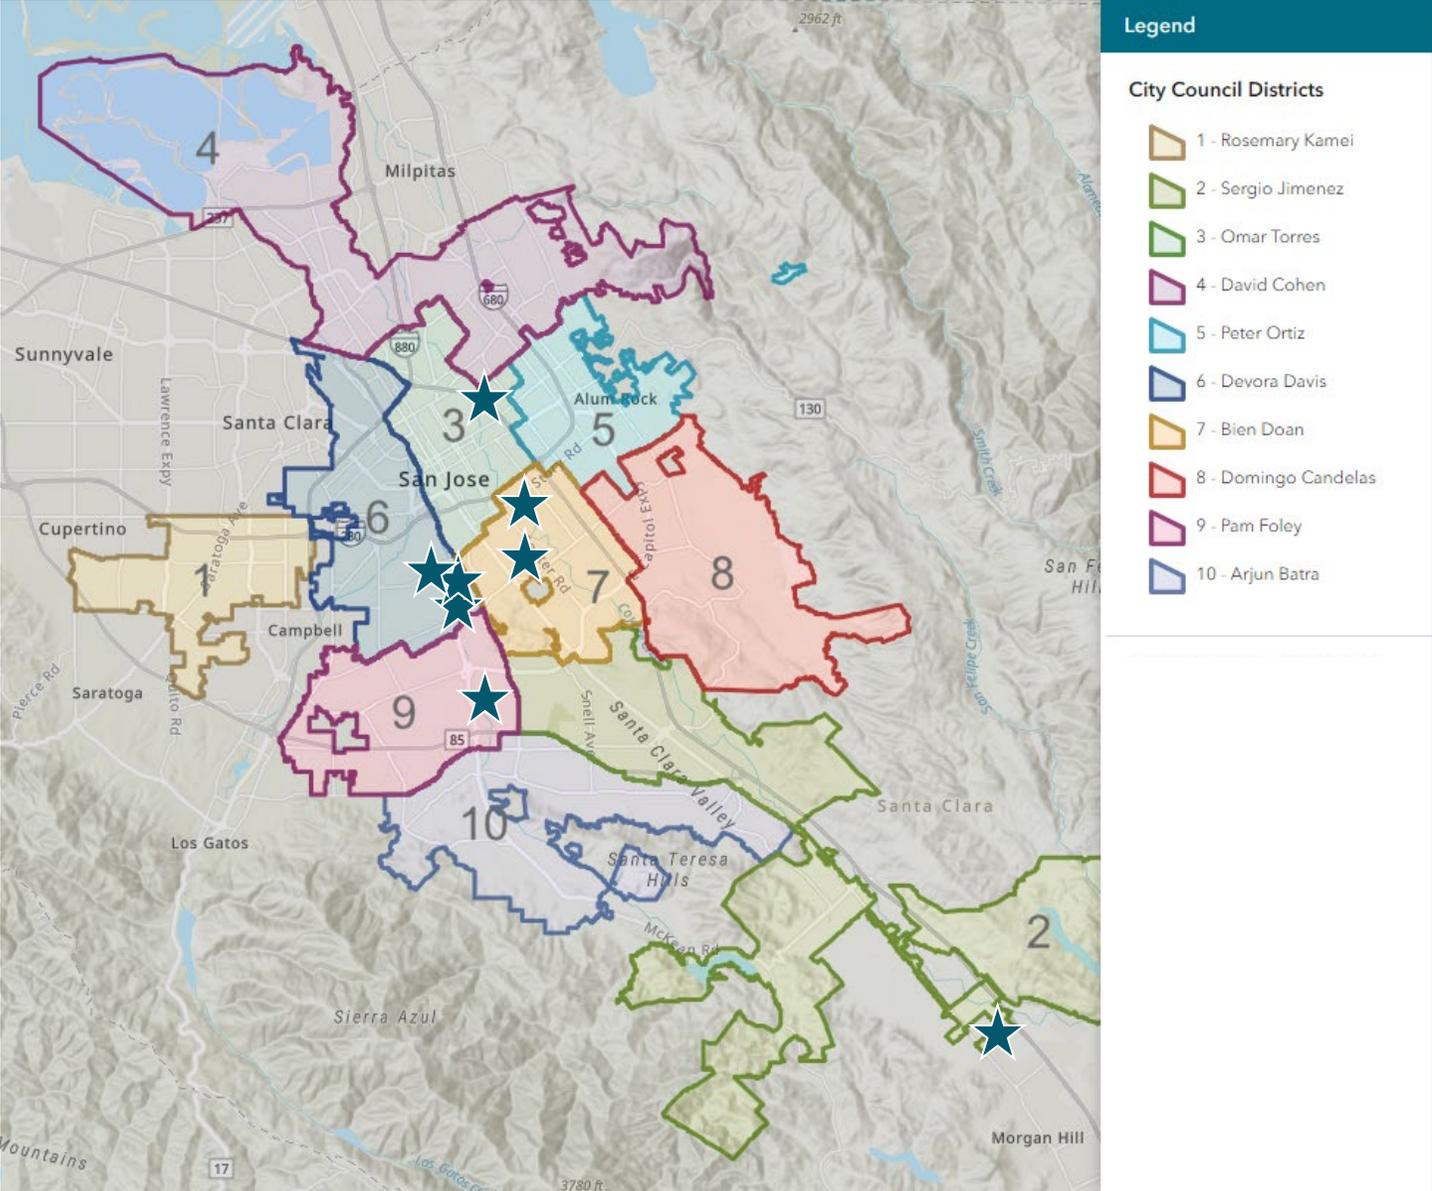

Environmental Factors:

- Air Quality, Flood Zones, Impact on natural habitat

Real Estate Considerations:

- Zoning restrictions, Land use limitations

Potential Supportive Outdoor Sleeping and Basic Needs Sites

Proposed Uses for Identified Sites

Supportive Outdoor Sleeping Sites:

- Secured and managed individual tent areas for adults 18+
- Provision of food, potable water, toilets, showers, laundry, and waste disposal
- Explore options and viability for a form of service delivery

Basic Needs Sites:

- Basic trash services
- Portable toilets and hand washing stations
- Showers and laundry facilities
- Trash disposal services
- Limited site security or monitoring

Next Steps

Approval and Analysis:

- Determine additional analysis needed for feasibility & conduct in-depth evaluations of site suitability (e.g., environmental studies, greenbelt analysis, noise studies, etc.)
- Develop operational models for sites and lowest feasible cost operations
- Explore what service models can be woven into site management

Expedite Construction:

- Authorize Director of Public Works to award and execute contracts
- Accelerate construction start dates and reduce project schedules by 6-8 weeks

Future Reporting and Engagement:

- Semi-annual reports to City Council on Delegation of Authority
- Provide updates on estimated costs and operating models
- Identify community outreach and engagement, as needed
