Residential Building and Combination Permit Fees shall be \$315.00 per hour for inspection time expended or the amounts set forth below, whichever is greater. Residential Building Permit Fee inspection hours for single family residential are calculated on a per building basis based on the square footage of the model. Residential Building Permit Fee inspection hours for multi-family are calculated based

on the square footage of each building. These Building Permit Fees are in addition to the Permit Processing Fees set forth in Section 3.300.

Tier 1 equals 40 minutes, Tier 2 equals 70 minutes, Tier 3 equals 130 minutes, Tier 4 equals 250 minutes. Units = # dwelling units. Tiers are invoiced at the number of minutes for that tier times the Permit Inspection Hourly Rate.

Building Inspection fees calculated by the Alterations table below are subject to a cap based on the two-step process outlined in the process below.

Step 1: Determine the number of Inspection hours for the permit based on the Alterations included. This is done by taking the Tier Minutes for the first alteration selected and adding 25% of the Tier Minutes for each additional Alterations selected from the table in Section 3.040, below.

Step 2: Take the total number of Tier Minutes calculated in Step 1 and divide it by 60. Multiply that number by the Unit Bracket Percentage Multiplier in the table below and that equals the initial number of Inspection hours that will be charged for the permit.
