

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Matt Loesch

SUBJECT: SEE BELOW

DATE: May 13, 2024

Approved

Date

5/22/24

COUNCIL DISTRICT: 3

SUBJECT: AGREEMENT WITH SAN JOSE WATER COMPANY FOR WATER SERVICES AT FIRE STATION NO. 8

RECOMMENDATION

Adopt a resolution authorizing the City Manager, or her designee, to negotiate and execute an agreement with San Jose Water Company to install water facilities at Fire Station No. 8, at a cost not to exceed \$110,530.

SUMMARY AND OUTCOME

The 9157-Fire Station No. 8 Relocation (2018 Measure T) Project (Project), currently in construction, is located at 601 E. Santa Clara Street, in Downtown San José (**Attachment – Location Map – 9157 - Fire Station No. 8 Relocation (2018 Measure T) Project**). The Project consists of a new single-company, two-story building, with one apparatus bay. In addition, the new building includes a private office, an open office area, a kitchen with dining and a living room area, and four dormitories with hall bathrooms, a workout room, and other building support rooms, of approximately 5,900 square feet.

On August 15, 2023, the construction contract was awarded to D.L. Falk Construction, Inc. Construction began on October 5, 2023 and scheduled to be completed in March 2025.

Approval of the agreement with San Jose Water Company will allow the water services for the Project to be installed.

BACKGROUND

On November 6, 2018, 70% of San José voters approved ballot Measure T - The Disaster Preparedness, Public Safety, and Infrastructure Bond. The measure authorizes the City of San José to issue up to \$650,000,000 in general obligation bonds for infrastructure projects. The bond provides \$175 million for Public Safety projects that included three new fire stations (Nos. 32, 36, 37), two relocated fire stations (Nos. 8 and 23), and several other critical public safety projects.

Fire Station No. 8 was designed as an “Essential Services Facility” per the California Essential Services Buildings Seismic Safety Act of 1986 and the 2016 Critical Operations Power Systems - California Electrical Code Section 708. Future plans for the existing Fire Station No. 8 building, located at the southeast of corner of Santa Clara Street and 17th Street, will be evaluated upon vacancy.

ANALYSIS

The new water services must be installed by San Jose Water Company to serve the new fire station. This agreement is for the preparation of the engineering plans, construction, and installation of a potable water line, a fire riser, an irrigation line, one valve box, two meters, the associated connections valves, and the retirement of existing service. Staff reviewed the estimate and considered \$110,530 a reasonable fee for this work.

EVALUATION AND FOLLOW-UP

No additional follow-up action with City Council is expected at this time.

COST SUMMARY/IMPLICATIONS

The total agreement cost will be funded through the Public Safety and Infrastructure Bond Fund. The ongoing operations and maintenance cost have been accounted for in the ongoing Fire Department’s 2025-2029 General Fund Five-Year Forecast.

1. TOTAL COST OF CONTRACT/AGREEMENT

Contract/Agreement Amount	\$110,530
Recommended Amendment (as included in the memorandum)	\$0
TOTAL CONTRACT/AGREEMENT AMOUNT	\$110,530
