**BASIS FOR RECOMMENDATION:**

At the January 30, 2024 City Council meeting, the City Council approved item 8.2 and directed the City Manager and City Attorney to:

- Prepare an ordinance giving flexibility to add locations through City Council resolution which prohibits the parking and authorizes the towing of oversized vehicles on public roadways within any area where an engineering assessment has identified that safety hazards for pedestrians, bicycles, or vehicles caused by the parking of oversized vehicles exist.
- Prepare an ordinance giving flexibility to add locations through City Council resolution, which prohibits the parking and authorizes the towing of vehicles parked within any area that prohibits parking between the hours of 10:00 p.m. and 6:00 a.m.
- Initiate a pilot at three K-12 schools most impacted by the parking of oversized vehicles.

Subsequently, at the April 9, 2024 City Council meeting, City Council approved two ordinances (Nos. 31051 and 31052) authorizing the removal of vehicles parked in violation of prohibited large vehicle parking zones and no overnight parking zones.

As directed during the January 30, 2024 City Council meeting, staff conducted the required engineering assessments, resulting in the identification of the parking restrictions outlined in the recommended resolutions at Independence High School, Shirakawa Elementary School, and Challenger School – Berryessa.
