

3.4 2023-2024 City Council Focus Areas Second Quarter Status Report.

Recommendation:

Accept the second quarter status report on the implementation of the Fiscal Year 2023-2024 City Council Focus Areas.

CEQA: Not a Project, File No. PP17-009, Staff Reports, Assessments, Annual Reports, and Informational Memos that involve no approvals of any City action. (City Manager)

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Dolan Beckel

**SUBJECT: 2023-2024 CITY COUNCIL
FOCUS AREAS SECOND QUARTER
STATUS REPORT**

DATE: February 1, 2024

Approved

Date

2/1/24

RECOMMENDATION

Accept the second quarter status report on the implementation of the Fiscal Year 2023-2024 City Council Focus Areas.

SUMMARY AND OUTCOME

For the reporting quarter, the Mayor and City Council will understand the current status of outcome and performance measures, key budget programs/initiatives, Fiscal Year 2023-2024 resourcing for key budget programs/initiatives, planned versus actual key accomplishments for the reporting period, policy and other City Council considerations, and planned key accomplishments for the next reporting period for the following Fiscal Year 2023-2024 City Council Focus Areas:

- Increasing Community Safety;
- Reducing Unsheltered Homelessness;
- Cleaning Up Our Neighborhoods; and
- Attracting Investment in Jobs and Housing.

The Mayor and City Council will also understand lessons learned and improvements made in this second quarter status report, improvements planned for the third quarter status report, and recommended updates to the Focus Area Scorecards.

BACKGROUND

The purpose of the City Council Focus Areas is to hold the City accountable for driving positive outcomes and performance on a very limited number of priorities most greatly impacting the community and to generate actionable and measurable solutions to address these priorities. The scope of each City Council Focus Areas is very specific and does not include all services provided by the City that might be related to the scope of a Focus Area. City Council Committee

Reports and Agenda Item Memoranda instead provide information on additional related scope not included in a particular City Council Focus Area.

ANALYSIS

Focus Area Scorecards and Dashboards

Focus Area Scorecards

Each of the four second quarter 2023-2024 City Council Focus Area Scorecards may be found in the following attachments:

- **Attachment A:** Increasing Community Safety Focus Area Scorecard;
- **Attachment B:** Reducing Unsheltered Homelessness Focus Area Scorecard;
- **Attachment C:** Cleaning Up Our Neighborhoods Focus Area Scorecard; and
- **Attachment D:** Attracting Investment in Jobs and Housing Focus Area Scorecard.

During the City Council meeting for this item, the Assistant City Manager/Deputy City Manager Executive Sponsor for each Focus Area will provide a verbal update on these scorecard sections including:

- Outcome and performance measures and trends from the reporting quarter;
- Key budget programs/initiatives;
- FY 2023-2024 resourcing for key budget programs/initiatives;
- Planned versus actual key accomplishments for the reporting period (for this report, only actual key accomplishments are reported);
- Policy and other City Council considerations; and
- Planned key accomplishments for the next reporting period.

Focus Area Dashboards

In addition to scorecard outcome and performance measures, Focus Area Dashboards include a more comprehensive, interactive set of performance data, expanding on the vital few indicators identified for the scorecards. The dashboards also include additional functionality and features, including disaggregation, data interaction, and longer time histories where available.

The launch of the first versions of the Focus Area Dashboards, limited to the Focus Area Scorecard outcome and performance measures, was completed in December 2023, with publication on the City's website in partnership with the Information Technology Department and the City Manager's Office of Communications.¹ Future iterations are planned to include quarterly updated data and functionality enhancements of existing data with disaggregation by May 2024.

Execution as Learning

To foster an adaptable vision on how to achieve the City Council's priorities, the Administration set forward implementing the Focus Areas within the context of "execution as learning." This

¹ <https://www.sanjoseca.gov/your-government/departments-offices/mayor-and-city-council/city-council-focus-areas>

model prioritizes collective learning for cross-departmental and cross-jurisdiction collaboration, promotes psychological safety, encourages failing forward quickly, and simplifies complexity through iteration and experimentation. Over the first and second quarters of implementation, four “execution as learning” categories have emerged.

1. **Implemented Learnings** – Several learnings were appropriate to be implemented in this quarterly status report.
2. **Outcome and Performance Measure Evaluations** – Staff analysis indicates changes to the City Council-directed Outcome and Performance Measures may be appropriate.
3. **Performance Measure Data Collection Challenges** – Staff analysis shows that issues with the operational data collection for two performance measures render the measures currently unreportable.
4. **Other Recommendations** – Other recommendations based on the last two quarters of learning are identified for City Council consideration.

Each of these four “executions as learning” categories is elaborated below.

1. Implemented Learnings

- **Key Outcome Measure Survey Drivers** – Survey data collected through the Focus Area Community Survey lends critical and representative information on how the community experiences the topics of the Focus Areas. The scorecards that include this public perception data now include “Top Contributors”, where applicable, to showcase how the community understands drivers and influences, suggesting where the City might be able to improve outcomes.
- **Previous Year Baseline and Trends** – Under a second iteration of scorecard data, the Administration has visually indicated the change from quarter to quarter by using a ticker format. Even where the change is minimal, this enables stakeholders to more clearly understand and anticipate the trajectory.
- **Key Budget Programs/Initiatives** – Based on City Council feedback regarding the reported level of detail, the execution teams for each Focus Area prioritized the top budget programs and initiatives most impactful to driving performance improvement as measured by the outcome and performance measures. As a result, a more limited and prioritized number of key budget programs and initiatives are reported.
- **Policy and Other City Council Considerations** – Based on City Council feedback to elevate the level of operational detail and to include important policy considerations, there is a specific section labeled Policy and Other City Council Considerations. Other City Council considerations may include, but are not limited to, urgent, important, and timely operational or service delivery items for City Council awareness.
- **Planned versus Actual Key Accomplishments** – In addition to the current quarter for each reporting period, the Administration included for next quarter the planned key accomplishments that are most relevant to the top contributors for performance and key budget programs and initiatives. Planned key accomplishments were not identified in the previous scorecard, so all planned versus actual key accomplishments in this report’s scorecards will be color-coded with a “grey” status. The next quarterly Focus Area Scorecards will contain a red/yellow/green stoplight status on the planned versus actual

key accomplishments to identify where plans met, exceeded, or fell short of expectations and incorporate those key learnings to improve execution next quarter.

2. Outcome and Performance Measure Evaluations

- **Cleaning Up Our Neighborhoods** – In future reports, staff recommends modifying the code enforcement case backlog measure from the current format, which shows the percent change in backlog cases from quarter to quarter, to a revised format which shows the total number of cases in the code enforcement case backlog for the quarter. Staff believes this format will be more intuitive and better contextualize the overall magnitude of the caseload.
- **Attracting Investment in Jobs and Housing** – Staff is assessing the “residential units entitled” measure. It is meaningful to see the total capacity of units possible – for instance, when low units entitled starves the pipeline of housing long-term. At the same time, the measure does not show near-term activity or progress converting approved housing into available units. Staff is evaluating what data is available to identify an outcome measure the City can more readily affect for a potential alternative measure in the next quarterly report.

3. Performance Measure Data Collection Challenges

- **Increasing Community Safety** – On April 4, 2023, the San José Police Department transitioned from the Summary Reporting System to the National Incident Based Reporting System. This transition resulted in substantial disruption of department’s crime data reporting processes, necessitating manual correction of thousands of database entries. As a result, crime statistics are not currently available. The San José Police Department will continue work to address this issue and provide a verbal update during the City Council presentation.
- **Attracting Investment in Jobs and Housing** – Both the data from the Employment Development Department and the United States Census Bureau’s American Community Survey lag by one full year. Neither the Administration nor the City Auditor have found an adequate data source for which City leadership might consider trading off some degree of accuracy for being more current in order to make informed decisions. Staff will continue to seek a timelier data source for City-specific job starts.

4. Other Recommendations

- **Recommended Local and Large City Baselineing** – As a complement to the existing scorecards, the Administration recommends continuing to explore options to leverage in-kind opportunities, including management fellows who present no impact to the General Fund, to collect comparable scorecard outcome and performance measure data from other local jurisdictions and other large cities to help inform Focus Area execution.
- **Recommended Focus Area Scope Alignment** – The Reducing Unsheltered Homelessness City Council Focus Areas has brought focus, clarity, and progress in the City’s efforts to address homelessness in the City. The City must also work with our partners to prevent homelessness and mitigate the impacts of the homelessness crisis on all San José residents, housed and unhoused, neighborhoods, businesses, and the

environment in addition to supporting the continuum of housing solutions. In order to align goals, present a holistic picture of the homelessness crisis, improve coordination, and reduce possible confusion, it is recommended that the Administration explore the best way to incorporate a more holistic picture of homelessness as part of the Reducing Unsheltered Homelessness scorecard and return to City Council with further scorecard and dashboard recommendations.

- **Recommended Reporting Cadence** – Based on the pace at which the outcome and performance measures change, finite staff capacity, and the value at which the Focus Area Scorecards can inform annual budget decisions, it is recommended that the City Council consider directing the Administration to bring the Focus Area Scorecard Report to the City Council on a semi-annual basis in the month of September and the month of February of each fiscal year. Key budget programs and initiatives for each Focus Area may be worked into Mayor and City Council Briefings and Committee Work Plans for additional transparency and feedback where and when appropriate. Outside of this recommended reporting cadence and to ensure focus area work can move forward quickly, the Administration will be nimble and bring any important policy item(s) requiring City Council consideration directly to the City Council in a timely manner. Focus Area Dashboards will continue to be updated on a quarterly basis.

EVALUATION AND FOLLOW-UP

The Administration will continue quarterly updates on the City Council Focus Areas and will return with a third quarter status update by the end of May 2024, unless otherwise directed by the City Council.

COORDINATION

This memorandum and related documents were prepared in coordination with the City Attorney's Office, City Manager's Budget Office, and City Manager's Office of Administration, Policy, and Intergovernmental Relations.

PUBLIC OUTREACH

This memorandum will be posted on the City's Council Agenda website for the February 13, 2024 City Council meeting. Over 120 members of the community participated in the Mayoral Transition Committees and provided direct community input on the Focus Area Scorecards. In addition, an average of 800 non duplicated San Jose residents are surveyed quarterly based on the recent United States Census so that the survey results accurately reflect the demographic make-up of our diverse City.

COMMISSION RECOMMENDATION AND INPUT

No commission recommendation or input is associated with this action.

CEQA

Not a Project, File No. PP17-009, Staff Reports, Assessments, Annual Reports, and Informational Memos that involve no approvals of any City action.

PUBLIC SUBSIDY REPORTING

This item does not include a public subsidy as defined in section 53083 or 53083.1 of the California Government Code or the City's Open Government Resolution.

Traffic Fatalities (quarterly)

* On April 4, 2023, SJPd transitioned from the Summary Reporting System (SRS) to the National Incident Based Reporting System (NIBRS). As the NIBRS program allows for greater specificity in crime reporting and consequently increases the reported incidence of certain crime types, an accurate comparison between 2022 and 2023 crime rates is not possible. This transition also resulted in substantial disruption of SJPd's crime data reporting processes, necessitating manual correction of thousands of database entries. As a result, crime statistics are not currently available. SJPd will continue work to address this issue and provide a verbal update during the City Council presentation.

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Councilmember Davis

SUBJECT: 2023-2024 CITY COUNCIL FOCUS
AREAS SECOND QUARTER STATUS REPORT

DATE: February 12, 2024

Approved 

Date: 02/12/2024

RECOMMENDATIONS

- 1) Accept the second quarter status report on the implementation of the Fiscal Year 2023-2024 City Council Focus Areas.
- 2) Direct the City Manager to explore the best way to incorporate a more holistic picture of homelessness as part of the Reducing Unsheltered Homelessness scorecard. Return to City Council with further scorecard and dashboard recommendations to align with the City and County Plan to End Homelessness.
- 3) Direct the City Manager to bring the Focus Area Scorecard Report to the City Council for discussion on a semi-annual basis in the month of September and the month of February of each fiscal year, while continuing to update the dashboards quarterly.

DISCUSSION

Currently, City staff are working in collaboration with County staff to implement the City and County Plan to End Homelessness. Our metrics need to reflect the full breadth of the three pillars of that work. Therefore, the scorecard and dashboard should be changed to better align with City and County Plan to End Homelessness.

City staff time can be better spent doing the focus area work rather than preparing for and presenting to City Council four times per year. Reporting once in September to give an update and once in February to inform the budget process is sufficient. Interested councilmembers are always able to request briefings on any topic from staff, and dashboards will still be updated quarterly for full public transparency.

Background - 2023-2024 Priority-Setting | City of San José

City Council Focus Areas

	Increasing Community Safety		Reducing Unsheltered Homelessness		Cleaning Up Our Neighborhoods		Attracting Investment in Jobs and Housing
--	------------------------------------	---	--	---	--------------------------------------	---	--

City Service Areas and Outcomes (within the 2023-2024 Adopted Budget)

Community and Economic Development	Environmental and Utility Services*	Neighborhood Services	Public Safety	Transportation and Aviation Services*
<ul style="list-style-type: none"> • Thriving, inclusive, and attractive communities and vibrant public spaces • Strong, Responsive, and Equitable Economy and Development Services • Accessible and Diverse Range of Housing and Business Opportunities 	<ul style="list-style-type: none"> • Reliable Utility Infrastructure • Healthy Streams, Rivers, Marsh, and Bay • Clean and Sustainable Air, Land, and Energy • Safe, Reliable, and Sufficient Water Supply 	<ul style="list-style-type: none"> • Safe and Clean Neighborhoods and Public Spaces • Welcoming and Vibrant Neighborhoods and Public Life • Equitable Access to Community Opportunities to Flourish 	<ul style="list-style-type: none"> • Safer San Jose with Effective Emergency Response Services • Resilient Communities that are Prepared for Emergencies 	<ul style="list-style-type: none"> • Provide Safe and Secure Transportation Systems • Provide Viable Transportation Choices that Promote a Strong Economy • Travelers Have a Positive, Reliable, and Efficient Experience • Preserve and Improve Transportation Assets and Facilities • Provide a Transportation System that Enhances Community Livability

Strategic Support	City Manager Foundational Strategic Support Focus Areas
<ul style="list-style-type: none"> • Sound Fiscal Management that Facilitates Meeting the Needs of the Community • A High Performing Workforce Committed to Exceeding Internal and External Customer Expectations • Technology and Data Tools that Enable a Collaborative, Responsive, and Productive City • Safe and Functional Public Infrastructure, Facilities, and Equipment 	<ul style="list-style-type: none"> • Delivering Excellent Customer Service • Closing Racial Inequities • Structurally Balancing the General Fund Budget • Driving Organizational Performance • Making San José a Great Place to Work

Core Services (98) and Programs (264)

*The Environment and Utility Services and Transportation and Aviation Services CSAs collectively share a City Infrastructure Strategy with the following outcomes: disaster ready and climate smart, transportation and aviation, clean energy resilience, water resilience, and natural environment restoration.

Increasing Community Safety Scorecard

Outcome and Performance Measures

Q2 2023-2024

Oct – Dec 2023

Outcome

City Safety Perception. % of residents rating San José as “very safe” or “somewhat safe” (Source: Focus Area Community Survey)

City 0%
Neighborhood 3%
Downtown 3%

Performance

1) Property Crime Rates*

(Source: PD Versadex RMS)

--%

% change in incidents of property crime types (burglary, larceny, vehicle theft)

2) Violent Crime Rates*

(Source: PD Versadex RMS)

--%

% change in incidents of violent crime types (homicide, rape, robbery, aggravated assault)

3) Cumulative Traffic Fatalities

(Source: DOT, PD)

9

Traffic Fatalities (quarterly)

* On April 4, 2023, SJPd transitioned from the Summary Reporting System (SRS) to the National Incident Based Reporting System (NIBRS). As the NIBRS program allows for greater specificity in crime reporting and consequently increases the reported incidence of certain crime types, an accurate comparison between 2022 and 2023 crime rates is not possible. This transition also resulted in substantial disruption of SJPd's crime data reporting processes, necessitating manual correction of thousands of database entries. As a result, crime statistics are not currently available. SJPd will continue work to address this issue and provide a verbal update during the City Council presentation.
